POSEIDON SE7EN

In a world full of compromise, we escape by visiting the one place that doesn't: the ocean. Yet when we get there, we are forced to compromise. Not any more...

Designed, built and tested to perform in all conditions, the POSEIDON SE7EN is the next generation rebreather. Safety, performance, ease of use and desirability are combined to enable divers of all abilities to experience the underwater world without compromise. Whether you want to get closer to marine life, spend much more time underwater, dive deeper or simply enjoy the bubble-free silence, the POSEIDON SE7EN is the smartest, fastest, safest way to dive.

The POSEIDON SE7EN
– one day, all rebreathers will be like it.

THE NEXT GENERATION REBREATHER

Developed from the world's first recreational rebreather, the legendary Poseidon MKVI, the POSEIDON SE7EN gives you **7 Next Generation Benefits**:

G7 INSIDE

Generation 7 electronics open up endless possibilities for interaction, accessories and apps. Entirely new internal hardware driven by a new generation of firmware makes the SE7EN faster, flexible and reliable in any diving environment.

BLUETOOTH CONNECTIVITY

Download your dive logs in seconds, update your settings and interact effortlessly with your Poseidon SE7EN, all using Bluetooth.

DIVE MANAGEMENT SYSTEM

Enjoy enhanced interaction with your rebreather. The upgraded configuration tool interacts with your Poseidon SE7EN via Bluetooth, allowing you to make configuration changes in moments. See your dive logs in far greater detail and much more. Better still, it's now Mac compatible!

RECREATIONAL OR 100M TECHNICAL REBREATHER

The Poseidon SE7EN can be whatever you want it to be! You can use the SE7EN as a Recreational Rebreather or as a 100M-rated Technical Rebreather; it's your choice! Poseidon's industry-leading upgrades give you the ultimate recreational and technical rebreather flexibility.

ENHANCED SERVICE & SUPPORT

Poseidon already has class-leading reliability and technical support, but the SE7EN makes service and support even easier and more convenient. Dive logs download automatically via Bluetooth to support. Detachable displays and sensors mean that support is even faster and more convenient than before!

UPGRADED MOUTHPIECE

The best rebreather mouthpiece just got even better! A new system designed for military use keeps the bail-out valve locked in place in closed or open circuit, while still enabling simple switches from closed to open circuit.

COVER

Protective, desirable and functional in equal measures, the cover on the Poseidon SE7EN has a built-in handle system, along with grab and lighting rails.
